Provost Search Committee -

Thank you to any staff members who participated in the on-campus interviews or attended the open forums for each of our candidates for the Provost search. I think we had some great candidates on campus, and I look forward to seeing who President Kitts selects as our next Provost. Generative AI Task Force - The committee met the week after Spring Break and are continuing to work on developing guidelines for the use of Generative AI. The goal is to have guidelines developed by May. Kari-Kay attended a webinar last week that was hosted by UAB and plans on reaching out to a colleague in HR from UAB to see if we could have access to their policy/guidelines for employees so we (UNA) can adapt that information for our purposes.

Special thanks to the Staff Affairs Committee for their work related to HyFlex. They are working on providing additional guidance/information to send to Catherine White. The committee will meet this upcoming Wednesday. Look forward to seeing everyone at our Spring event in May!
